WHO IS PALAZZINA WELLNESS?

Palazzina Wellness stands for the creation of high-quality spaces for movement, regeneration, and inner balance.

For over 15 years, we have been developing modular spatial solutions in the Baltic region that set standards across Europe and rank among the finest of their kind.

Our roots lie in modular construction, our passion lies in well-being.

With the ambition to unite sport and relaxation holistically, we create personal retreats instead of standardized products.

Each module is a tailor-made unique piece – precisely aligned with the wishes, needs, and visions of our customers. Premium materials, careful craftsmanship, and sustainably sourced wood from Sweden define every detail.

Palazzina Wellness stands for trust, durability, and solutions with character

NORDIC SAUNA TRADITION MEETS GERMAN DESIGN

For centuries, the sauna has been an integral part of Scandinavian culture – as a place of relaxation, health, and regeneration. This tradition forms the heart of our wellness concepts.

Palazzina Wellness combines this cultural heritage with German precision, technical expertise, and contemporary design. In collaboration with modern manufacturers, we create durable saunas and wellness modules that reinterpret tradition while meeting the highest standards.

The result is individually developed wellness spaces that make tranquility tangible and are consistently tailored to the needs of our customers.

A man with short brown hair, wearing a grey long-sleeved sweater and dark blue jeans, stands with his back to the camera in a lush green garden. He has his hands on his hips and is looking at three different sauna products. On the left is a traditional wooden barrel sauna with its door open, revealing wooden benches inside. In the center is a modern, dark grey rectangular sauna with a curved top and an open door. On the right is another wooden barrel sauna, similar to the first one but with a black roof and a silver chimney pipe on top. The background is filled with green foliage and trees.

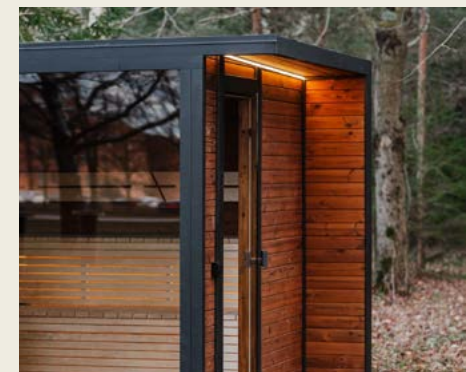

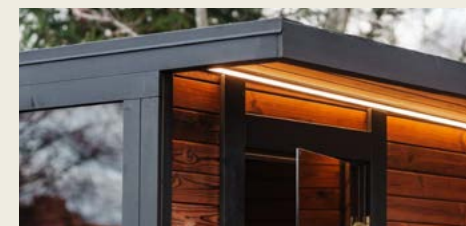

PRODUCTS

NOVA M 250X240

Outdoor Sauna with Thermo Wood

The Nova M 250×240 is the perfect choice for anyone looking for a modern and spacious outdoor sauna with style and functionality. Thanks to the high-quality thermo wood cladding, large panoramic window made of tempered glass, and clean lines, this model blends harmoniously into any garden design – ideal as a durable garden sauna for 4–6 people.

Inside, wide linden wood benches, atmospheric Harvia lighting, and an integrated ventilation system ensure a relaxing sauna experience. The solid 44 mm wall thickness and fully prepared electrical installation make the Nova M a robust, ready-to-use garden sauna – suitable for year-round use, space-saving, and premium in craftsmanship.

TINY SAUNA L 200X210

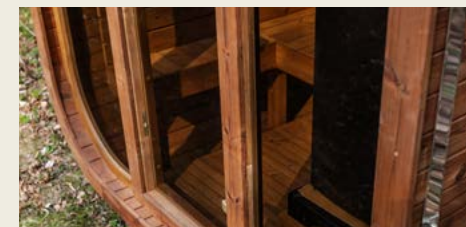

Mini Garden Sauna with Panoramic Window

The Tiny Sauna L 200×210 is the perfect solution for anyone with limited garden space who does not want to miss out on a real sauna experience. With its compact size and high-quality equipment, it is a fully functional outdoor sauna in mini format – including a large panoramic window for relaxing views.

The interior impresses with L-shaped thermo wood benches, LED lighting, heat protection, and integrated ventilation. The DIY construction as a pre-assembled kit enables quick and easy self-assembly – ideal for home improvement enthusiasts.

Whether as an introduction to the world of garden saunas or as a space-saving second sauna: the Tiny Sauna L delivers true wellness in minimal space.

Delivery is made as a securely packed DIY kit in an OSB box including assembly instructions – or optionally fully assembled at an additional cost (selectable in the dropdown menu).

LUXE SPA THERMO XL 500X240

Garden Sauna with Hot Tub in Thermo Wood

The Luxe Spa Thermo XL combines modern design, premium materials, and two highlights in one: a stylish outdoor sauna made of thermo wood and an integrated hot tub with fiberglass (GFK) insert. Ideal for those who want maximum relaxation in their garden.

The sauna features thermo wood interior cladding, linden wood benches, and generous glass surfaces. The hot tub complements the wellness module with a comfortable bathing experience – perfect for cool evenings or relaxing moments for two. Welded bitumen roofing, tempered glass, and a sophisticated ventilation system guarantee durability and comfort – even in winter.

BARREL PANORAMA 260X244

Barrel Sauna with Panoramic Window

The Barrel Panorama 260×244 combines the traditional barrel shape with a modern, fully glazed panoramic window – ideal for those who want to enjoy nature while sauna bathing. With its compact length of 2.6 m, it is particularly space-saving and perfect as a garden sauna.

Inside, high-quality linden wood creates a pleasant climate, while tempered safety glass and 44 mm thick walls ensure heat retention and safety. A Harvia lamp, integrated ventilation, and prepared electrical installation complete the equipment.

This outdoor sauna is not only functional but also a design statement for your garden. The combination of shape, comfort, and view makes it a popular choice for private wellness areas.

LUXE 400X245

Outdoor Sauna with Anteroom

The Luxe 400×245 is a compact outdoor sauna with an anteroom, perfectly suited for private gardens. The elegant design with spruce or thermo wood cladding (optionally paintable) blends harmoniously into any environment. Inside, you will find comfortable linden wood benches, integrated ventilation, and two Harvia lamps for atmospheric lighting. The anteroom offers space for changing or relaxing – with generous dimensions of 200 × 185 cm.

The sauna is designed for up to 6 people and, with a wall thickness of 44 mm, provides solid insulation for year-round use. Whether after sports or to unwind after a long day – the Luxe 400×245 transforms your garden into your personal wellness oasis.

CUBE SAUNA TERRASSE 300X242

Outdoor Sauna with Terrace

The Cube Sauna Terrasse 300×242 combines modern aesthetics with an open, inviting design – perfect for those who want to extend their garden sauna with a small terrace. The side terrace area invites cooling down, sitting, or a stylish entry into the sauna experience.

Inside, 4–6 people can sit comfortably. Linden wood benches, a Harvia lamp, and a well-designed ventilation system ensure a high-quality sauna experience.

The 85 cm deep terrace offers functional comfort and enhances the modern overall appearance of the sauna. Thanks to tempered safety glass, thermo or spruce wood cladding, and a 44 mm wall thickness, the model is ideal for year-round use in the garden – compact, premium, and highly versatile.

A person in a light-colored t-shirt is standing in a wooden sauna. To their left is a black wood-burning stove with a fire burning inside. The stove has a hopper on top filled with dark, irregular stones. In front of the person is a large, cylindrical metal basket filled with similar dark stones. The sauna has wooden walls and benches. A white text box with the words "INSTALLED COMPONENTS" is overlaid on the image.

INSTALLED COMPONENTS

ELECTRIC HEATERS

HARVIA TOP STEEL 9KW

The wall-mounted Harvia Top Steel impresses with its modern appearance, fast heating time, and even heat distribution – ideal for premium sauna concepts.

Power: 9 kW

Stone capacity: 20 kg

HARVIA CILINDRO 9KW

Slim electric sauna heater with a large stone capacity for intense and flexible infusions. The open stone column allows gentle or targeted steam for an individualized sauna experience.

Power: 9 kW

Stone capacity: 90 kg

HARVIA LEGEND 10.8KW WI-FI

Compact electric sauna heater in traditional design with modern Wi-Fi control. Large stone capacity for intense and even heat development.

Power: 10,8 kW

Stone capacity: 100 kg

HUUM DROP 6KW

Design electric heater in drop shape, awarded the Red Dot Design Award. Despite its compact size, it offers a high stone capacity for soft, long-lasting steam.

Power: 6 kW

Stone capacity: 55 kg

HUUM DROP 9KW

Design electric heater in drop shape with elegant, slim silhouette. Despite its compact size, it offers a high stone capacity for soft, long-lasting steam.

Power: 8,5 kW

Stone capacity: 55 kg

HUUM HIVE MINI 9KW

Compact design electric heater with large stone capacity for especially mild, long-lasting steam. Round shape and premium stainless steel details for modern sauna concepts.

Power: 9 kW

Stone capacity: 150 kg

HUUM HIVE MINI 10.5KW

Compact design electric heater with generous stone capacity for mild, long-lasting steam. Round shape and premium stainless steel details for sophisticated sauna concepts.

Power: 10,5 kW

Stone capacity: 150 kg

WOOD-BURNING HEATERS

HARVIA M3

Classic wood-burning sauna heater for an authentic sauna experience. Ideal for barrel and garden saunas, with fast heating time and even warmth. Compliant with 2nd BlmSchV regulation.

Power: 16,5 kW

Stone capacity: 30 kg

HARVIA CILINDRO 16

Modern wood-burning sauna heater with open stone column for powerful, even heat. Large stone capacity for soft, intense steam like in professional sauna facilities. Compliant with 2nd BlmSchV regulation.

Power: 16,5 kW

Stone capacity: 120 kg

HARVIA 20 PRO BIMSCHV

Powerful wood-burning sauna heater for an authentic sauna experience. Fast heating time and even warmth – ideal for barrel and garden saunas. Compliant with 2nd BlmSchV regulation.

Power: 24,1 kW

Stone capacity: 40 kg

HARVIA LEGEND 150

Characterful wood-burning sauna heater with large stone capacity for even, long-lasting heat and a pleasantly humid sauna climate. Viewing window in the door for an authentic atmosphere. Not compliant with 2nd BlmSchV regulation.

Power: 16 kW

Stone capacity: 120 kg

HARVIA LEGEND 240

Powerful wood-burning sauna heater with distinctive design and large stone capacity. Excellent heat storage for even, long-lasting heat and an intense sauna experience. Not compliant with 2nd BlmSchV regulation.

Power: 21 kW

Stone capacity: 200 kg

HUUM HIVE WOOD 13

Modern round-design wood-burning sauna heater with visible fire for an authentic atmosphere. Large stone capacity ensures mild, long-lasting steam – ideal for saunas without electricity connection. Not compliant with 2nd BlmSchV regulation.

Power: 13 kW

Stone capacity: 90 kg

HUUM HIVE FLOW MINI LS 8,5 kW

Compact wood-burning heater with large stone volume for pleasant, long-lasting warmth in smaller saunas. Efficient combustion, low emissions, and modern design – suitable for saunas of approx. 6–14 m³. Compliant with 2nd BlmSchV regulation.

Power: 8,5 kW

Stone capacity: 105 kg

NOTE ON WOOD-BURNING HEATERS IN GERMANY
WOOD-FIRED SAUNA HEATERS MUST COMPLY WITH THE REQUIREMENTS OF THE 2ND BIMSCHV REGULATION AND MUST BE REGISTERED AND APPROVED BY THE RESPONSIBLE DISTRICT CHIMNEY SWEEP BEFORE COMMISSIONING.

WI-FI CONTROL & CHIMNEY

WI-FI FUNCTION FOR HARVIA CILINDRO

Modern touch control panel for precise control of the sauna heater. In combination with the CX110 WIFI control and the MyHarvia app, the sauna can be conveniently operated from anywhere.

WI-FI FUNCTION FOR HUUM HEATER (CLASSIC BLACK)

Minimalist UKU control panel for intuitive control of all sauna functions. High-quality version with integrated child safety lock – harmoniously integrable into any sauna design.

WI-FI FUNCTION FOR HUUM HEATER (GLASS BLACK)

Elegant UKU control panel with glass front and minimalist design. Intuitive control of all sauna functions, available in various color tones and with integrated child safety lock.

INSULATED CHIMNEY HARVIA ROOF PENETRATION

High-quality insulated stainless steel chimney by Harvia for sauna heaters in separate sauna buildings. Easy installation, high resistance to temperature fluctuations, and durable design. Modular system with secure connection technology for maximum reliability and proven Harvia quality.

EXTERIOR CLADDING & WOOD TYPES

For the exterior façade of our saunas, we use high-quality, durable wood from Swedish cultivation. Spruce (Spruce Wood) is used as standard.

Alternatively, we offer thermo wood for increased dimensional stability and weather resistance.

In addition, a wide range of colors and surface treatments is available – from natural wood tones to modern, dark designer finishes. This allows each sauna to be harmoniously adapted to architecture and surroundings.

CUBE SAUNA BASE TRAILER

CUBE SAUNA BASE TRAILER 300 × 242:
1.820,00 € INCL. 19 % VAT.

The perfect base for your mobile sauna – robust trailer construction for safe transport and stable positioning.

Without road approval, suitable exclusively for transport on private property.

Road approval is generally possible but must be individually checked depending on sauna model and destination country.

ADDITIONAL EQUIPMENT COLD PLUNGE

COLD PLUNGE INCLUDING CHILLER:
4.450,00 € INCL. 19 % VAT.

The perfect complement to your sauna – a high-quality wooden cold plunge tub with integrated chiller system for optimal cooling and regeneration.

- Cooling down to 2°C – Professional chiller system for constant temperature
- Sand filter system

CHILLER SYSTEM IN DETAIL

The industrial chiller system from the brand "imate" ensures reliable and consistent cooling for your cold plunge.

- Digital display for precise temperature control
- High-performance cooling fan for efficient cooling
- Includes filter cartridges for optimal water quality
- Complete hose system for easy installation
- Robust construction for long-lasting operation
